RESEARCH INTERESTS

Analysis on Pre-trained Language Models, Language Model Pre-training, Commonsense Reasoning, Natural Language Processing, Machine Learning

EDUCATION

University of Southern California, Los Angeles, CA, U.S.A. 08/2019-present
Master of Science in Computer Science, Viterbi school of Engineering

Seoul Women's University, Seoul, Korea. 03/2014-08/2018
Bachelor of Engineering in Computer Science & Engineering

Illinois Institute of Technology, Chicago, IL, U.S.A. 08/2016-05/2017
Exchange Student, Information Technology and Business, School of Applied Technology

RESEARCH EXPERIENCE

INK Lab, University of Southern California, Los Angeles, U.S.A. 12/2019-present
Research Student Worker, Advised by Professor Xiang Ren

- Working on constructing a challenging commonsense dataset that evaluates the capabilities of Pre-trained Language Models(PTLMs) in making commonsense inferences and the robustness of these inferences to language variations.
- Worked on constructing a novel numerical commonsense probing task with a diagnostic dataset consisting of 3K masked word prediction probes.
- Worked on expansive experiments to check whether our novel pre-training objectives improve a pre-trained text-to-text transformer to pack more commonsense knowledge into its parameters without relying on any external resources.

WORK EXPERIENCE

INNERGBUS, Chicago, IL, U.S.A

05/2017-06/2017

Intern, Software Development Division

- Worked with web development team
- Developed websites for a range of divisions across the company using PHP, Javascript, HTML, CSS, AWS
- Contributed to the development of networking software by providing technical support

COMPUTER SKILLS

Python, Swift, Java, C++, HTML, CSS, JavaScript, React, Django
